

2021 Spring Symposium of Korean Society of Applied Pharmacology

# Recent Trends and Drug Development in Neurodegenerative Diseases

April 16 (Fri.) 2021, 09:00~18:00

Online E-Conference

## Plenary Lecture

Taupathogenesis in Alzheimer's disease

Yong-Keun Jung (*Seoul National University*)

Targeting Reactive Astrocytes to Develop New Drugs for Neurodegenerative Diseases

Changjoon Justin Lee (*Institute for Basic Science*)

- **Session I: Novel Aspects of the Pathogenesis of Alzheimer's Disease**
- **Session II: As Targeting Protein Kinases So Stem Cells**
- **Session III: Time to Consider Glioblastoma Therapy**
- **Session IV: Parkinson Disease, Neuroscience, and Beyond**
- **Session V: Industrial Revolution for Neurodegenerative Diseases**
